

OPTICON TOUCH Simple, Intuitive, Trustworthy

Are you looking to optimize your poultry performance? Then it's of utmost importance that you have insights in performance parameters such as live weight and feed conversion as well as maintain a low overall mortality.

OPTICON TOUCH

Our latest innovation is the OPTICON TOUCH. The OPTICON TOUCH provides you at a glance all vital farm data at any moment in time. The controller has a highly-intuitive touch screen that enables you to quickly access all important parameters. The unit is suitable for integration with all of our OPTICON controls. Ensuring valid and reliable data in a simple, intuitive and trustworthy way. Helping you to identify and improve bird performance more easily.

Ease of Use

The OPTICON TOUCH is designed to be simple and useful. It summarizes data of each connected controller in an intuitive way and puts you in direct control. Providing greater transparency and control over your birds. You will find useful insights from data that really drives the performance and you can easily make adjustments where necessary.

Features :

- ✓ Simple and intuitive design
- ✓ All Opticon Controls can be connected
 - Water and feed control
 - Climate control
 - Weight monitoring
- ✓ Reliable and valid farm data
- ✓ Real-time flock information for proactive management
- ✓ Greater transparency and control over your birds
- ✓ GPRS, WIFI, LAN and direct connection

OptiLink Management Software

You want to see how your birds are performing at any moment in time? Optilink helps you to monitor and analyze your farm data. With insights gathered from OptiLink you can turn data into action.

Once you start analyzing the key performance indicators you will be able to boost your birds performance. Optilink enables you to detect problems in an instant and quickly make changes were necessary.

Analyze data from behind your desktop, tablet or smartphone. Optilink provides all these possibilities to you.

What are the benefits?

- Accessible anywhere / anytime
- Share and analyze with consultants, veterinarians, colleagues real-time
- Desktop, tablet or smartphone
- Customized graphs
- 365 days of data storage on the server (extension is possible)
